DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3 and 21-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Benning et al. (EP 0 639 387 A1).

Benning et al. disclose a clamping means for an injector comprising a cannula (2) for receiving an implant (10) and inserting the implant into an animal, the cannula having a sharp tissue penetrating distal end (7); a spring element (4) received entirely within the cannula, the spring element having a leaf spring (6) for retaining the implant inside the cannula, the leaf spring applying a frictional force against the implant sufficient to prevent the implant from sliding out of the cannula under a weight of the implant, wherein the leaf spring is formed as a T-shaped cut out portion, see Figure 5; and an obturator (3) for delivering the implant from the cannula into the animal.

Allowable Subject Matter

Claims 4-6, 26 and 27 are allowed.
